Know Your Traffic Laws

Prepared in cooperation with the Traffic Education Bureau of the Torrance Police Department

Jaywalking continues to be a matter of concern in downtown Torrance even though the city received an award from the National Safety Council in 1961 for its pedestrian safety program.

"Our downtown area is perhaps as congested as any area of the city and every day pedestrians can be observed walking out from in back of parked vehicles causing traffic to stop or slow down to avoid an accident," Police Department officials said.

MOST BUSY intersections in Torrance have painted crosswalks in addition to signal pedestrian controls to assist the pedestrian. It may at times seem a little inconvenient to walk an additional 25 or 50 feet to a corner but it is well worth the few additional steps, according to the department.

When children see their parents jaywalk and walk in a manner contrary to what they are being taught in school the teaching of good safety habits in school becomes difficult.

THE DEPARTMENT has given five good practices for pedestrians:

Cross corners only at corners, using crosswalks.

Obey all traffic signals and signs, paying particular attention to those equipped with pedestrian controls.

Walk on sidewalks, not on the roadway. Where there are no sidewalks, walk on the shoulder of the road facing traffic.

Never stand in the roadway or hitch-hike.

As a pedestrian there are obligations required of you just as the driver of a vehicle. Know these obligations and obey them.

WE DON'T realize that most of us several times each week are no more than a second or two from becoming involved in an accident and as a pedestrian we don't have such protection.

"A few simple rules, if obeyed, will do much to reduce the possibility of being struck by a vehicle and certainly set a proper example for children to follow," the department said.

Indulging deceit is like the defendant arguing for the plaintiff in favor of a decision which the defendant knows will be turned against himself. —Mary Baker Eddy.
